The Big Why

At sixty-one years of age, I have moved internationally for the first time from Brisbane, Australia to Florida in the United States of America.

Why such as move?

I was called to be in the USA for several years now to be a light in difficult times. My ability to travel was hampered by the Australia Government who banned international travel for two years during covid. However, that did not diminish the flame that was burning within me to follow my own internal guidance system.

The Vision Eyediology was the basis of making that decision even though I hadn't labelled that as such. It was just as feeling within that knew I had to be here, and I choice to be courageous and follow my Vision.

My desire is that The Vision Eyediology will inspire you to follow your intuition, your dreams and your Vision.

The world is waiting for you!

The Vision Eyediology

By Barry Auchettl

Welcome to The Vision Eyediology!

The Vision Eyediology is a New Vision.

The Vision Eyediology is seeing the world with new eyes.

The Vision Eyediology is about how we see with our physical eyes and with our inner vision.

The Vision Eyediology recognises that each one of us is the Light in the world. Our primary objective is to shine that light as brightly as we can and share that light to others so they can pass it on.

The Vision Eyediology recognises that the clearer we see ourselves, the clearer we see the world.

The Vision Eyediology is expressed in our inner world though raising our own vibration and in clearing blocks that stop us living our full potential.

The Vision Eyediology is expressed in the outer world through raising our frequency and in clearing our own physical eyesight.

The result is that we make a real difference in the world while living a more luxurious and fun life.

The Vision Eyediology is based on the principle that I do not see how things really are, I see based on who I am.

The Vision Eyediology is a choice to connect and see others with eyes of love.

The Four Eyes

The Vision Eyediology is founded upon The Four Eyes

1. I Believe in Myself

Be your best self and achieve what you came to do on this planet.

2. I Accept Others

See others as their best selves and to hold their Vision even if they cannot do that yet for themselves.

3. I Share My Vision

Your Vision is not just there for yourself. Your Vision is meant to be shared with the world.

4. I See My Own Divinity

See the god aspect of yourself and share that with others too.

Behind The Vision Eyediology

The Vision Eyediology is a New Vision.

The world has already changed and we cannot go back. The big question is what has it changed to? That really depend on how you see the world. If you follow one side, you will see darkness, polarisation, chaotic order and mistrust everywhere. However, these are just the outbursts of those who are clinging to the old ways. What is really there is a lighter, accepting and discerned trust that is ready to shake the world up.

The Vision Eyediology is seeing the world with new eyes.

In order to see this new world, one has to see it with new eyes. WE see the increase beauty that is happening in the world. We see people being encouraged to express their true identity and what people yearn again for unity and connection. The result is that there is a softer and more sustainable world for ourselves and our children.

The Vision Eyediology is about how we see with our physical eyes and with our inner vision.

How we see is more than with our eyes. Millions of pieces of information is coming in through all our senses and our brain sorts all of that to create a picture. This is also as much as we see ourselves as it is to see the world.

The Vision Eyediology recognises that each one of us is the Light in the world. Our primary objective is to shine that light as brightly as we can and share that light to others so they can pass it on.

Each one of us were born with light. A baby glows and is loved for just existing. Then over time, we find ways to diminish this light through stress, judgements, blame and guilt. As we learn to shine our own light, we give other permission to do the same. This light is others then begins to shine again more brightly and awakens the light in those around them.

The Vision Eyediology recognises that the clearer we see ourselves, the clearer we see the world.

How we see ourselves is based upon every experience and emotion that we have had in our lives. Many of those experiences and emotions help us to grow and shape us to become who we are today. However, some of these experiences and emotions brings us down to lower vibrations and create a filter that make it hard for us to see and operate in the world

The Vision Eyediology is expressed in our inner world though raising our own vibration and in clearing blocks that stop us living our full potential.

Vibration is connected to our inner world through our level of consciousness and our connection to spirit. What stops us mostly from raising our Vibration are unconscious sabotage programs and blocks that keep us from moving forward. When freed from theses, it is possible to reach an infinite degree of possibilities for your soul

The Vision Eyediology is expressed in the outer world through raising our

frequency and in clearing our own physical eyesight.

The result is that we make a real difference in the world while living a more luxurious and fun life.

Frequency in the outer world relations to the law of attraction and our ability to manifest things in the real world like money, relationships and health. As we become clearer in the world, our eyes relax to the present moment and changes the way we physically see. The result is increased abundance and we get to see life. We get to live life as we were meant to.

The Vision Eyediology is based on the principle that I do not see how things really are, I see based on who I am.

The Australian Aboriginals did not see the sailing ships land on the Australian shore as they had no concept of what a sailing ship was. Likewise, we often don't see what we don't want to see by blocking it out of our minds. The result is that we see life through a filtered lens. As we become more open, our lens becomes open to see even more that beyond the 3D world.

The Vision Eyediology is a choice to connect and see others with eyes of love.

This is it. This is what changes everything. As we connect and see others with eyes of love, we raise our Vibration and the Vibration of the planet. This is what has and continues to create change in the consciousness of people here on planet earth.

Behind The Four Eyes

The Vision Eyediology is founded upon The Four Eyes

1. I Believe In Myself

Be your best self and achieve what you came to do on this planet.

The first “Eye” is essential to growth and transformation of the individual and the planet. It recognizes that doubt and lack of self-worth only slow our progression through life. An understanding that we deserve to live our best life lifts the veil that stops us playing small in the world and enables us to shine.

2. I Accept Others

See others as their best selves and to hold their Vision even if they cannot do that yet for themselves.

The second “Eye” recognizes that everyone is doing the best they can. When we look for the good in others, we give them permission to step up in the world. We encourage them gently to be a light to others and we hold that light for them until they are ready.

3. I Share My Vision

Your Vision is not just there for yourself. Your Vision is meant to be shared with the world.

The third “Eye” recognizes that having a Vision for yourself is important so you know where you are heading to in life. Sharing that Vision with others takes inner courage and strength. It also requires a strong belief in your own Vision and the determination to share that with others so that YOU become the example to the world.

4. I See My Own Divinity

See the god aspect of yourself and share that with others too.

The fourth “Eye” sees the larger picture. Our divine self is bigger than who we are as an individual. We are all divine individuals AND we are all one. As we recognize this, our choices in life becomes more aligned with our higher self and the evolution of the planet.

The Life Vision Community

The Life Vision Community is a journey looking at Inner Vision and Outer Vision.

Inner Vision

1. Looking at how to raise your Vibration and have a closer connection to spirit
2. Clear blocks to all the obstacles that come before you in life.

Ultimate Vision Mentoring

Ultimate Vision Mentoring is a 12 month advanced Vision transformation program and includes Life Vision Mentoring and Tribal Vision Mentoring.

The Ultimate Vision Mentoring program transforms your life by raising your personal Vibration (inner consciousness) and your Frequency in the world (outer manifestation) in order to help you reach your full potential. It starts by becoming aware of and breaking through your own Glass ceiling

Life Vision Mentoring is about personal transformation, which leads to

Tribal Vision Mentoring is about becoming a leader in your community.

The benefits of being in the Life Vision Mentoring program have been too many to count, and I may not even aware of many of them. All the tools that have been given to us, from the daily gratitudes, the virtues, the Emotional Scale, to the connection with others are just a few benefits that come to mind. I continue to listen to the sessions regularly, and each time I hear, learn or retain something new. **Susan Drury; Canada**

On a personal level, I attracted my dream girl / soul mate, and we are now engaged to be married. On a professional level, I earned six figures for the first time and was able to help a much greater number of people naturally heal their eyes. I also believe that the Vision 2020 documentary might not exist if it weren't for Barry and I regularly working together, leading up to its creation. **Nathan Oxenfeld; USA**

Participating in Life Vision Mentoring has given me the ability to move forward in planning and implementing the completion of my book and planning for my new online course. **Robert Grimes; Australia**

Life Vision Mentoring can change your life! Choosing to release old stories, clearing limiting beliefs and nagging emotions, reframing a negative worldview, and committing to what you want moving forward are all good reasons to join. The benefit of doing this with likeminded people from all over the planet cannot be over emphasised. The level of joy, allowance, lightness, possibilities, accomplishment, and giggles are very high! **Aryana Tayler Daniel; USA**

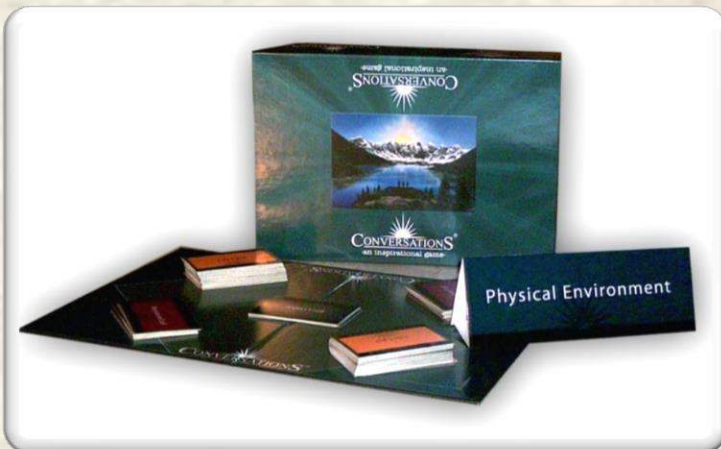

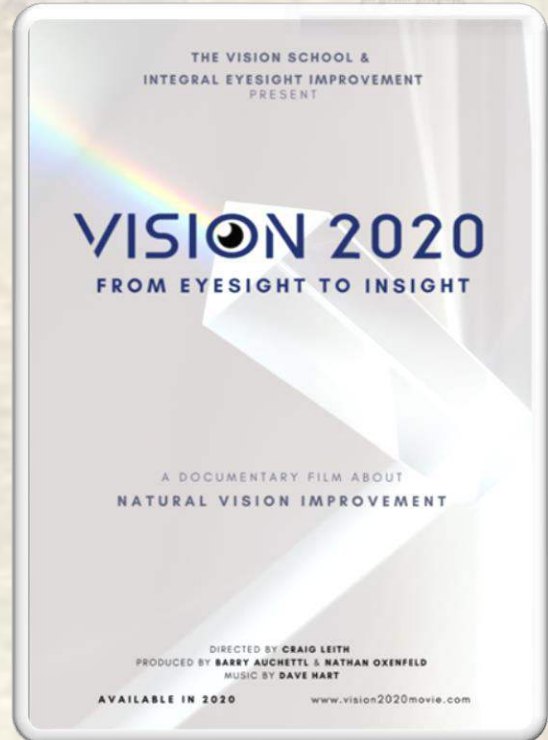

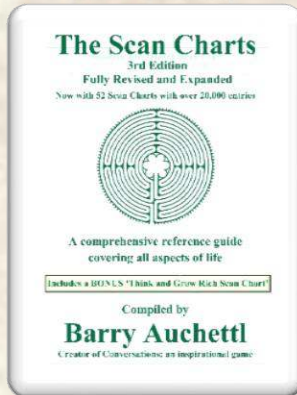

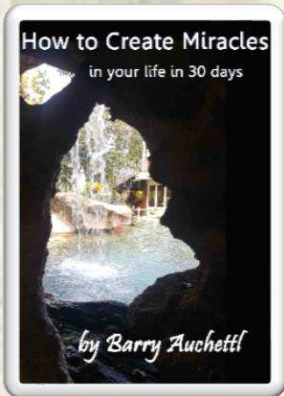

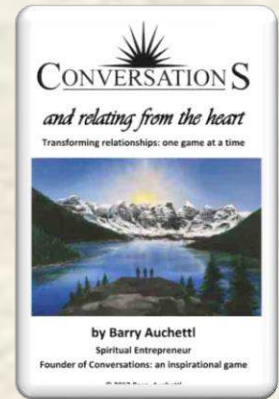

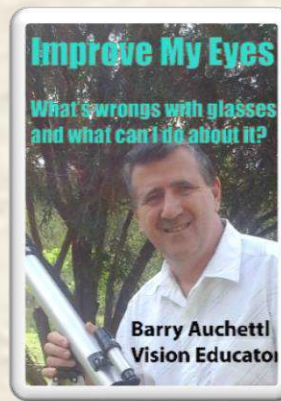

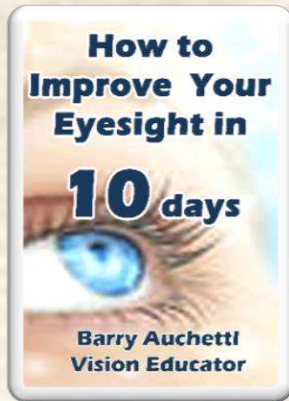

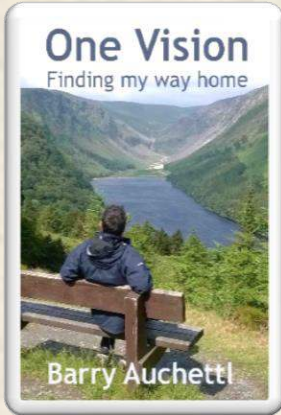

There isn't a question that Life Vision Mentoring will benefit your life; financially, emotionally, in your relationships and in all your goals. If you want to reach the next level your life, do Life Vision Mentoring right now. **Lars Rain Gustafsson; Canada**

Do it! If you are at a point in your life when you are considering doing Life Vision Mentoring, then definitely go for it. There is nothing to lose. Increasing your Frequency to over 100 and Vibration to over 1000, will make such a difference to your life; it would be impossible to do this program without it having a major impact on your life. You will meet amazing people and you will find Life Vision Mentoring a hugely supported journey. The one-on-one sessions will ensure you clear personal issues, of which you may be entirely unaware. So, it is not just another program with standard material you have to work away at on your own. It is a journey undertaken with other people, with a personal destination for each of you, which is beyond your current dreams. **Rosalind Bryden; United Kingdom**

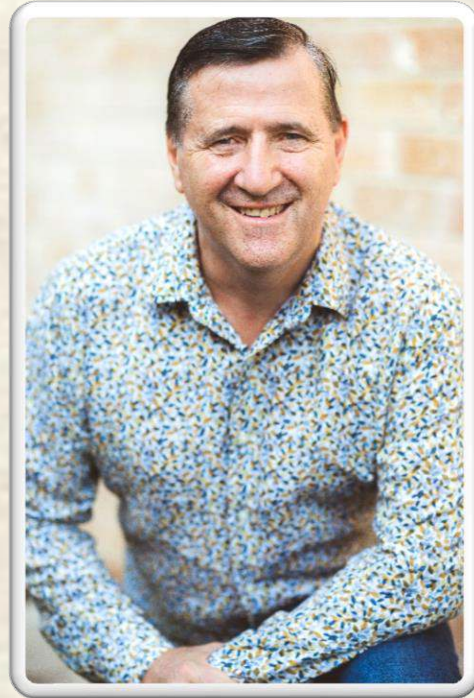

Life Vision Mentoring is the best thing you can do to move yourself further in life. **Ann Foster; New Zealand**

Life Vision Mentoring will allow you to untap your inner and outer potential so you can fully live The Vision Eyediology and live a more fulfilled, prosperous and rewarding life.
